## SUBJECT INDEX

- |  |     |   |     |
|--|-----|---|-----|
| Accidents, road traffic, injuries in Thailand                                      | 37  | <i>Clostridium bifermentans</i> serovar, Malaysia                           | 394 |
| <i>Aedes aegypti</i> , <i>Aedes albopictus</i> , urban breeding, Sarawak, Malaysia | 543 | <i>Clostridium difficile</i> latex test                                     | 321 |
| <i>Aedes aegypti</i> , insecticide effects and virus susceptibility                | 536 | Cryptosporidiosis in HIV-positive IV drug users, Malaysia                   | 650 |
| <i>Aedes aegypti</i> , <i>Toxorhynchites splendens</i> , population interaction    | 752 | Cryptosporidiosis in infants with acute diarrhea, Myanmar                   | 654 |
| <i>Aedes albopictus</i> (Skuse), use of hexaflumuron                               | 374 | Cryptosporidiosis in Philippines  | 300 |
| AIDS, attitudes, practices in transvestities, Indonesia                            | 102 | <i>Culex fuscocephala</i> , response to insecticides                        | 532 |
| Amebic encephalitis, granulomatous, Thailand                                       | 309 | <i>Culex quinquefasciatus</i> , resistance gene frequencies, esterase assay | 371 |
| Anemia, hookworm in Bali, Indonesia  | 459 | <i>Cyclospora</i> causing diarrhea  | 221 |
| Anemia in pregnant women, Saudi Arabia   | 84  | Dengue-2, envelope glycoprotein sequence                                    | 243 |
| Anemia, vitamin B12 deficiency, Malaysia   | 457 | Dengue IgM, IgG antibodies, storage stability                               | 560 |
| <i>Angiostrongylus cantonensis</i> in yellow tree monitor, Thailand                | 498 | Dengue-3 vaccine, neurovirulence, immune response                           | 554 |
| <i>Angiostrongylus malaysiensis</i> , isozyme genetic variability                  | 728 | Dengue virus infections, detection, Jakarta                                 | 262 |
| <i>Anopheles</i> biting habits, Orissa, India                                      | 187 | Dengue viruses, detection and serotyping by PCR                             | 258 |
| <i>Anopheles fluviatilis</i> James populations in Orissa, India                    | 196 | Diabetes mellitus, Salmonellosis, fatty liver and lipid embolism            | 405 |
| Anophelines, Thai zoophilic, susceptibility to malaria parasite strains            | 766 | Diarrhea caused by <i>Blastocystis hominis</i>                              | 490 |
| Antibiotic prophylaxis, surgical, Malaysian hospitals                              | 698 | Diarrhea, caused by <i>Cyclospora</i>                                       | 221 |
| Antimicrobial resistance, Singapore hospital                                       | 116 | Diarrhea, dioctahedral smectite study, Thailand                             | 157 |
| Aquatic vegetation hospitability to <i>Mansonia</i> mosquitos                      | 760 | Diphtheria, fatal in Thai adult   | 402 |
| ARI, KAP of mothers and children   | 590 | Disabling conditions in rural Thai community                                | 45  |
| Ascariasis with gastrointestinal hemorrhage  | 401 | DNA probe diagnosis of malaria  | 430 |
| Artemether regimen in severe malaria   | 650 | DNA topoisomerase II from <i>P. falciparum</i>                              | 32  |
| Artemether success after quinine failure in severe falciparum malaria              | 782 | Elderly Thai, socio-demographic characteristics and helath status           | 583 |
| Birth spacing and infant survival  | 50  | Encephalitis, Japanese B, neurological sequelae                             | 549 |
| <i>Blastocystis hominis</i> , cause of diarrhea                                    | 490 | <i>Enterobius vermicularis</i> in children, Malaysia                        | 494 |
| <i>Blastocystis hominis</i> , comparison of microscopy and culture                 | 792 | Epidemiological characteristics of road traffic accidents in Thailand       | 37  |
| <i>Blastocystis hominis</i> , cyst morphology                                      | 790 | Epidemiology, malaria in Thailand   | 425 |
| <i>Campylobacter</i> exotoxins, Malaysia   | 443 | Equity poverty and economics of health care consumption                     | 615 |
| Capillariasis with intestinal pseudo-obstruction                                   | 600 | Factor V VIII combined deficiency, therapeutic response                     | 217 |
| Carcinoma, hepatocellular, Japan   | 88  | Filarial disease, micro-spatial variation and disease risk, India           | 719 |
| China, frontier malaria in Yunnan  | 19  | Filarial infections, bancroftian, dynamics                                  | 201 |
| China, parasitic diseases  | 2   | Filariasis, bancroftian, cumulative exposure and chronic disease            | 516 |
| China, parasitic disease survey  | 4   | Filariasis, epidemiological surveillance, Shandong, China                   | 714 |
| Cholera epidemics, Sabah   | 208 | Fish culture, mosquito control in rice fields, India                        | 522 |
| Cigarette ingredients, disclosure  | 613 |   |     |
| <i>Clonorchis sinensis</i> , epidemiology in Guangdong, China                      | 291 |   |     |

# SUBJECT INDEX

|  |            |  |     |
|--|------------|--|-----|
| Gastric hemorrhage, control by monosodium glutamate                      | 605        | Malaria, epidemiology in Thailand  | 425 |
| Genetic disease in Asia  | 417        | Malaria, field evaluation of DNA probe methods   | 430 |
| Goiter, endemic in Sarawak, Malaysia                                     | 575        | Malaria, falciparum, cerebellar ataxia   | 707 |
| <i>Haemophilus influenzae</i> , systemic disease in children             | 672        | Malaria in Yunnan, China   | 19  |
| HCV antibody detection, rapid test                                       | 647        | Malaria, mefloquine resistance in Southeast Asia   | 11  |
| Health center utilization, rural Thailand                                | 361        | Malaria, primaquine use in G6PD deficiency   | 710 |
| Health status, socio-demographic characteristics, Thai elderly           | 583        | Malaria, severe falciparum, artemether success after quinine failure                                 | 782 |
| <i>Helicobacter pylori</i> serodiagnosis kit comparison                  | 316        | Measles, poliomyelitis survey, Malaysia  | 565 |
| Helminth, intestinal infections, Indonesia                               | 737        | Melioidotic otitis media   | 776 |
| Helminths, soil transmitted, rural Malaysia                              | 296        | Melioidotic spondylitis  | 603 |
| Hepatitis A antibody in retarded children                                | 392        | Meningitis, bacterial in children  | 107 |
| Hepatitis B vaccine immunogenicity in premature infants                  | 93         | Meningoencephalomyelitis and neuritis  | 594 |
| Hepatocellular carcinoma pathology, Japan                                | 88         | Meningoencephalomyelitis, CSF ciliates   | 212 |
| HIV-1 isolation from Filipino sex workers                                | 96         | Molluscicide, <i>Euphorbia splendens</i> in schistosomiasis control                                  | 419 |
| HIV positive IV drug users, cryptosporidiosis, Malaysia                  | 650        | Mosquito control, fish culture in rice fields, India   | 522 |
| Hookworm anemia, Bali, Indonesia   | 459        | <i>Mycobacterium tuberculosis</i> , PCR detection  | 693 |
| Hookworm control program evaluation, Thailand                            | 745        | <i>Mycoplasma pneumoniae</i> , <i>Clamidia trachomatis</i> and viral infections in pneumonia infants | 657 |
| Income inequality, equity and health care consumption                    | 618        | Neem oil as sandfly repellent  | 608 |
| Infant survival and birth spacing  | 50         | Obese children, physical fitness, Thailand   | 354 |
| Information, regional disease network                                    | 1          | <i>Paragonimus heterotremus</i> , antigens for serodiagnosis   | 176 |
| Insecticides, <i>Aedes aegypti</i> and virus susceptibility              | 536        | <i>Paragonimus siamensis</i> , natural first intermediate host, Thailand                             | 284 |
| Insecticides, <i>Culex fuscocephala</i> response                         | 532        | Parasitic diseases in China  | 2   |
| Insecticides, pyrethroid, susceptibility of <i>Periplaneta americana</i> | 528        | Parasitic disease survey, China  | 4   |
| Interferon effects on varicella zoster virus                             | 252        | Parasitic infection, hemoglobin in rural women, Thailand   | 474 |
| Intestinal parasitoses in Sri Lanka                                      | 469        | Parasitoses, intestinal, Sri Lanka   | 469 |
| Japanese encephalitis, mosquito vectors, India                           | 378        | <i>Periplaneta americana</i> , susceptibility to insecticides  | 528 |
| Japanese encephalitis, mosquito vectors, Malaysia                        | 383        | <i>Plasmodium falciparum</i> , DNA topoisomerase II  | 32  |
| Japanese encephalitis, neurological sequelae                             | 549        | <i>Plasmodium malariae</i> , <i>in vitro</i> susceptibility to chloroquine                           | 784 |
| Japanese encephalitis vaccine, efficacy, China                           | 643        | Pneumonia, infants, <i>Mycoplasma pneumoniae</i> and <i>Clamidia trachomatis</i>                     | 657 |
| Larvicidal potential of five Philippine plants                           | 755        | Pneumtonias, nosocomial, Thailand  | 232 |
| Leptospira detection in blood, QBC evaluation isoenzyme electrophoresis  | 788<br>181 | Pneumonia, risk factors for morbidity, mortality   | 60  |
| Malaria antigen Pfl55/RESA, longitudinal study                           | 25         | Poisoning, acute hospital admissions, Hong Kong  | 579 |
| Malaria, artemether regimen  | 702        | Poliomyelitis, measles survey, Malaysia  | 565 |
|  |            | <i>Pomacea canaliculata</i> , golden apple snail susceptibility                                      | 387 |
|  |            | Population growth and public health  | 229 |

|  |     |  |     |
|--|-----|--|-----|
| Poverty, income inequality and health care consumption                       | 618 | Streptococci, beta-hemolytic, serogroup distribution, anti-microbia susceptibility         | 139 |
| Pregnancy anemia, Saudi Arabia   | 84  | Sudden unexplained death syndrome, physiological and biochemical changes                   | 335 |
| <i>Pseudomonas pseudomallei</i> antigenic glycoproteins, tyrosinephosphatase | 436 | <i>Taenia solium</i> cysticerci, antibodies in Bali  | 464 |
| <i>Pseudomonas pseudomallei</i> , tunicamycin effect on acid phosphatase     | 144 | Tetanus, perinatal immunization  | 132 |
| Quinine toxicity with doxycycline and mefloquine                             | 397 | Thalassemia, blood coagulation profiles  | 449 |
| Rat-bite fever caused by <i>Streptococcus moniliformis</i>                   | 778 | Thyroid hormone profile, maternal and newborn, Myanmar                                     | 80  |
| Regional disease information network   | 1   | <i>Toxoplasma gondii</i> antibodies, Orang Asli, Malaysia                                  | 485 |
| Respiratory infection, acute fever Australian Aboriginal children            | 123 | Toxoplasmosis, seroepidemiology, Nepal   | 479 |
| Respiratory infection, acute lower, Filipino children                        | 684 | <i>Toxorhynchites splendens</i> , <i>Aedes aegypti</i> population interaction              | 752 |
| Respiratory infections, acute, KAP of mothers of children                    | 590 | Traffic accidents, injuries in Thailand  | 37  |
| Russell's viper venom, immobilization technique                              | 349 | Trichinosis, clinical study, Thailand  | 305 |
| <i>Salmonella blockley</i> isolation, Thailand                               | 688 | <i>Trypanosoma evansi</i> , detection by DNA amplification                                 | 266 |
| Salmonellae in duck eggs, Thailand   | 328 | Tyrosinephosphatase antigen of <i>Pseudomonas pseudomallei</i>                             | 436 |
| Salmonellae in hen eggs, Thailand  | 324 | Vaccine, dengue-3 neurovirulence immune responses  | 554 |
| <i>Schistosoma japonicum</i> cercaria ultrastructure                         | 501 | Vaccine-preventable disease, Micronesia  | 569 |
